Annual School Fair to be Continued

A very enthusiastic meeting was held in the Arrowwood School Tuesday evening last when a large number of people were present to discuss the advisability of continuing the School Fair this year. Owing to the present financial depression there was some doubt as to whether the Association would be able to carry on as usual, but after a lengthy discussion the meeting expressed themselves as desiring to continue the event if at all possible. The following officers were elected:

President—John Williams.
Vice-Pres—Dwight Richards.
Sec.—Treas—Mrs. McBride and H. McCullough.

Committee:

Swastika—Mrs. R. Williams
Shouldice—G. E. Harp.
Sunset—R. Beacom.
Buffalo Hill—Mrs. R. Shatto.
Dunree—X. P. Crispo.
Trego—M. Pinkerton.
Arrowwood—Mrs. F. Hall
W. Jones, Mrs. Ellis, B. Ingraham, L. F. Chrestenson.

It was the decision of the meeting that the soliciting for prizes be done by the representatives of the various units. The Association gladly welcomes the entry of the Trego School.

Mossleigh News

A very enjoyable farewell party in honor of Mr. and Mrs. Qunell was given at the home of Mr. and Mrs. P. O'Leary last Saturday evening.

Born—At Mrs. Speer's private hospital, Vulcan, on Sunday, Feb. 28th, to Mr. and Mrs. C. Cook, twins.

The members of the Mossleigh Women's Institute were royally entertained last week, when their husbands treated them to a sumptuous supper at the restaurant. This came as a great and pleasant surprise to the ladies.

Mr. and Mrs. Qunell left on Monday for Climax, Sask., where they will make their future home. The good wishes of their many friends at Mossleigh go with them.

The play presented last week by the Blind Creek Ladies' Aid was well attended and enjoyed by all present.

Mr. and Mrs. Abernethy entertained in honor of Mr. and Mrs. Qunell last Wednesday evening.

Shouldice News

Don't forget the dance on the 11th inst.—another special treat.

The Community Club held their social on Friday evening in the Hall, Whist was played. Mrs. Weber being the winner of the ladies' first prize and Mr. Hough the gent's. Supper was served, also ice cream given by the House Bros. Dancing was enjoyed until 3.30 a.m.

John Verigin, because of the death of his grandmother, has been forced to leave school and stay with his aunt near Vulcan.

Pleasant Evening

On Friday evening last the Leonard home was the scene of a very lively party when Mrs. Leonard and Miss Mary Mitchell entertained at bridge. Four tables contested very enthusiastically until about 11.45 when cards ceased and lunch was served by the hostess. All present ate heartily after which the winners for the evening were declared. Miss Isabelle McLeod winning the ladies first and Harry McCullough the gentleman's first. Isabel MacLeod and Howard Tharle were winners of the consolation.

Those present at the party were:

Mr. and Mrs. Leonard, Marjorie and Gladys, the Misses Mary Mitchell, Alma Connell, Carol Chrestenson, Kathie McLeod, Isabelle McLeod, Leona Spencer, Isabelle Mackie, Isabel MacLeod and Messrs. A. Phillips, H. Tharle, E. Larson, E. Ross, H. McCullough, J. Chisholm, J. McLeod and H. Eaton.

Regular Meeting of Arrowwood Council

The first meeting of the Arrowwood Council was held in the office, Ingraham building, on March 1st, all members being present.

Nomination of M. R. Leonard for Mayor for the ensuing term of one year was made by J. P. Beagle and seconded by E. Lewendon. Mr. Leonard took the chair.

The minutes of the meeting on Feb. 3rd were read and on motion by Beagle were adopted as read.

A letter from the Calgary Power Company was read, explaining the extra charge on the lighting account for the month of Feb. and also another letter from the same company granting the request for an extension of credit till the month of May or June, in which to pay their account. A letter to and reply from the Revelstoke Sawmill Co. regarding certain taxes were also read and ordered filed.

Moved by J. P. Beagle, seconded by E. Lewendon that the assessment made in 1931, be adopted and allowed to stand the same for year 1932. This was carried unanimously and will save the town \$25.

Moved by E. Lewendon and carried that the secretary order 500 assessment forms from the Bow Valley Resource.

Mr. M. Murray of Gleichen was again appointed Auditor on motion by E. Lewendon.

Mr. Jessmer made application for a licence to operate a pool room in town. J. P. Beagle moved that the Council recommend that a Provincial license be issued him.

Accounts presented:

T. S. Board; \$12.50

Receipt Book, 25c

Revenue stamps, 50c

Moved by Beagle that the above accounts be paid.

Moved by Leonard that the that the Council continue to

hold their regular meetings on the first Wednesday in every month at eight o'clock p.m.

Dr. Leisemer was again appointed health officers for another year.

Moved by J. P. Beagle that the meeting adjourn.

Local Minister Broadcasts Over CFCN

The Calgary Presbytery of the United Church was represented on the General Ministerial Broadcast, last Sunday, by our local minister, Rev. V. M. Gilbert. Many of the citizens tuned in and while they have only the best to say regarding the reception etc. yet they were admittedly disappointed when they did not hear the Arrowwood choir. The original plan was that both the choir and Mr. Gilbert should go in but bad roads interfered.

The reception was good, every syllable coming through. While the address as a whole, summarized the task of the church yet a strong personal appeal was carried through. It meant that our service here was disturbed, but those who regularly attend feel that they received some compensation in listening to their minister speaking to the larger congregation. Next Sunday the choir will sing at the morning worship, the number they expected to use over CFCN.

Some time ago the radio folk approached the United Church to see if they could not arrange a regular Sunday program. It was taken up by General Ministerial Association of Calgary and arrangements were made for the Anglican Church to have one Sunday and the Presbyterian Church one Sunday. The Baptist Church preferred to make their own arrangements which left the United Church with the remaining services. The Presbyterian Church has temporarily withdrawn leaving still another Sunday to be supplied. The broadcast is over CFCN every Sunday from 2.15 to 3.00.

Gleichen Gunners Win Intermediate Championship Title

Gleichen Gunners broke the tie with Edmonton Miners to win the Alberta intermediate hockey championship Tuesday evening when they defeated Miners 2-0 at the Arena in the second game of the playoff. The first game resulted in a 1-1 draw, Gunners taking the series by a total count of 3-1.

W. I. Meets at Home of Mrs. R. H. Bishop

The March meeting of the Women's Institute was held on Tuesday afternoon at the home of Mrs. R. H. Bishop.

Routine business occupied its usual place on the program.

Mrs. R. E. Hales was to have given a demonstration on "Handycraft," but owing to her absence, Mrs. Taylor read a paper by Mrs. Hugh J. Montgomery, of Wetaskiwan, Provincial President.

Mrs. Clarke of Cluny, Constituency convener, will address the next meeting.

Mrs. Taylor assisted Mrs. Bishop in serving a very dainty lunch.

P.-T.A. Will Hold Dance March 4th

Bremner's Orchestra will supply the music.

School Notes

The standing of pupils in the February Examinations will be published next week.

Money talks—and the high school is doing a lot of talk these days. The worst part is trying to figure how much money we have't got. It seems that the Literary Societies of previous years tried to follow the policies of governments—regulating their income according to the necessary amount of expenditure. This might have proved satisfactory had the outgo been no more than the income, but it wasn't. Thus we have arguments every day, trying to decide whether we are responsible for debts incurred by preceding societies.

Last week the soft ball equipment came into use for a number of good games but on Friday a real game of baseball was played and since then many have gone around rubbing sore arms.

LAMENTS OF A SCHOOL BOY

Mondays, Tuesdays, Thursdays,
All seem to be my blue-days,
For on these days we study
History 2.

I never have my notes done,
I don't even know my lesson,
I don't know why, but this is
always true.

Arithmetic and Latin,
Seem as soft as satin,
Chemistry and Grammar are
the same.

I shudder thro' and thro'
(Continued on page 4)

Jack Frost—King of Architects

Jack Frost, nature's greatest architect, completed yet another wonderful job, at Banff, on the main line of the Canadian Pacific Railway through the Rocky Mountains, this winter, when he designed and built the columns of the ice-castle of the Carnival Queen. As is easily seen by the picture, the two great pillars are the outstanding features of the palace. They were built by

putting into play, one month before the opening of the great event, two vertical streams of water. Then, more men got busy and built the connecting wall of gleaming transparent ice-blocks, between the two pillars, and set in front of it the great throne of ice, from which the ceremonies of the Carnival were conducted, in the presence of thousands of spectators from all parts of

Canada and the United States. Snow and ice contests of all kinds, winter sports in profusion, including the Alberta Provincial Skating Championships, went to make up the programme, which terminated in the election of Miss Margaret J. Nicol, of Drumheller, Alta., well-known as a tennis and hockey enthusiast, as Carnival Queen for 1932. Her picture is shown inset.

Crusaders

Perhaps Allenby's entry into Jerusalem did not comprise the Last Crusade. Vivian Gilbert notwithstanding. That eminent English preacher, Maud Royden, has again come into the limelight of publicity. And backed by such men as Herbert Gray and "Dick" Sheppard it is quite possible that she will start something worthwhile. These three might well make a trio that could create and express British thought. Their plan of a peace crusade may be only another expression of fanatical enthusiasm. And it may be something quite different.

At first one is liable to look upon a body of defenceless people marching between the trenches of two armies in action as a useless loss of life. Naturally we think of the Children's Crusade, that most futile of expeditions. And yet these people are asking the

League of Nations to permit them to enroll a peace crusade which will go to the war zone and camp between the opposing armies. Quoting their own words, "It comes to this: If China and Japan want to continue war and the League of Nations will send out a peace army, then the combatants will have to fight over our dead bodies."

"Without the shedding of blood," there seems that little or nothing of importance can be accomplished. And there was ground for hope in the slogan of the Great War, "The war to end." Granted that it was one of the most disappointing ironies in history, it contained the truth that progress demands sacrifice. In that terribly unsettled condition which followed the Great War, Jowett proposed that some nation might have to offer itself as a lamb and permit some armed horde to overrun it without any attempt of defence. Under the present conditions, would it do any good if China were simply to withdraw her forces and let Japan wreak her will? On the surface it looks as if it would only feed the military monster. But there are deeper forces in life than those which appear on the surface and we dare not say that it would not do good and perhaps be the most effective way out. And what of the proposed crusade? If it means so many citizens of other nations going there and figuratively wrapping their national colors about them and daring either side to shoot, it might prevent immediate bloodshed and save the lives of the crusaders but at best it can only delay the real issue. But if these people go disclaiming, for the time being the protection of any country, it may work wonders. But of one fact we are sure, that either in this or some other manner there will have to be some terrible slaughter of defenceless human life—or at least a real exposure to such a slaughter—before the War Demon will literally have eaten itself to death.

GRANT FLEMING, M.D., ASSOCIATE SECRETARY

Usual Diseases of Children

"Nothing serious"—"Only one of the diseases that children get." This is, unfortunately, what too many parents think about the more common communicable diseases.

It is quite true, that these diseases do occur chiefly among children, for the reason that children have no immunity or power of resistance against the invading disease germs. Disease among children is just as serious as when disease affects adults.

Every communicable disease is serious. Some take a heavier toll than others, some are more damaging in their effects, but all are serious. The communicable diseases should be prevented when possible, avoided always, and treated seriously if they do occur.

We look forward to the time when we will be able to definitely prevent all the communicable diseases, which are now causing so much suffering and disability and which are responsible for a very large number of deaths.

The first disease against which we were given a means of definite protection was smallpox. In the year 1796, Jenner, an English physician, published his findings which demonstrated that vaccination would prevent smallpox.

Smallpox is banished where vaccination is used. Smallpox is no longer one of the usual diseases of children, as it was before vaccination was discovered. In the pre-vaccination period, about one out of every ten deaths was caused by this one disease, and it was unusual to see a person who was not scarred by smallpox.

Within the past few years, we have been given the means of banishing another of the so-

called usual diseases of children—diphtheria. Diphtheria is a disease which, for generations, has stuck terror into the hearts of parents.

That diphtheria still continues to take a toll of over nine hundred lives each year, in this country, is due to our failure to make use of the means which are at our disposal for its prevention. We have in diphtheria immunization, a simple, safe and sure method of preventing diphtheria.

Unfortunately, the list of diseases which we can definitely prevent is limited. We can, however, in all cases use the general methods which are of value. No child should ever be exposed to contact with a child or an adult who is suffering from a communicable disease.

Isolation and quarantine are carried out to safeguard others, not merely to protect those who are quarantined. The placard on the door is placed there as a warning to others, not for the protection of the inmates of the placarded house.

Proper treatment of the case will lessen the chance of serious results. Neglect of the case, failure to understand that disease is always serious, leads to unnecessary pain and damage, if not fatal results.

Here and There

Grain shipments through the port of Halifax were nearly 400,000 bushels greater in 1931 than in 1930. Figures for the two years are: 1930, 731,995 bushels; 1931, 1,126,787 bushels.

Gold production from Northern Ontario mines in 1931 is estimated to have a value of \$43,000,000. Since mining began 25 years ago, these mines have produced to a value of \$395,000,000 worth of gold.

The Mountain comes to Mahomet these days. University of Alberta gives educational courses by radio four times a week, enabling those unable to attend in person to have the university taken to them.

Total value of all field crops produced in Canada in 1931 is estimated at \$431,251,000, of which wheat accounts for \$108,786,000. Hay and clover is the next most valuable crop, being put at \$113,561,000.

A solid block of blue granite hewn from the side of Mt. Sir Donald, in the Canadian Rockies, has been shipped to New Haven, Connecticut, to be incorporated in the new Stratheona Memorial Building now being built at Yale University.

The five great branches of primary industry in Canada, as measured by the latest available statistics of value of production were agriculture, forestry, mining, electric power and fisheries, with the first having a production greater than all the four others combined.

Out for the E. W. Beatty mid-winter golf championship trophy to be fought for over the links of the Royal Colwood Golf Course, February 22-27, leading amateurs from Seattle have notified their intention to compete. Last year's cup winners from Victoria will also tee off and there will be strong contingents from Vancouver and the Prairie Provinces as far east as Winnipeg.

Who is the Canadian Pacific pensioner with the longest service record? A controversy recently raging has been ended by the official statement that John Caesar, of Vancouver, is the "grand old man" of the company, with 48 years of service, closely followed by W. J. Grant, of Hamilton, with 47. They are respectively 81 and 75 years of age.

Highly pleased with their first experience of Canadian skiing country, delighted with Canadian hospitality and looking forward to future visits to the Dominion, the Oxford-Cambridge skiers sailed recently from Saint John to Liverpool aboard the Duchess of York. Matches between Canadian and British university ski teams will probably be a result of the visit.

Eyes of winter sport enthusiasts are now being focussed on the big event of the season on this continent, the 11th annual Eastern International Dog Sled Derby to be held February 22-24 at Quebec over a course of 123 miles, terminating with the Dog Derby Ball at the Chateau Frontenac. Outstanding dog mushers are entered for the event. (816)

You Can't Beat It for Farm Work!

JOHN DEERE FARM TRACTOR

In no other tractor for your work can you get the many advantages found in this light weight, powerful John Deere.

You get ample power to do your work, with plenty of surplus to meet emergencies.

You get simplicity and strength—a tractor of fewer, sturdier parts.

You get light weight—an advantage which enables you to get into your fields under weather conditions that keep other tractors idle.

You get a tractor that's surprisingly easy to handle, both in the field and with belt machinery. All controls are easily reached from the seat.

Above all, you get economy and long life—a tractor that will work for you at a profit for many years to come.

Because it brings you all of these advantages, the John Deere is today the outstanding value in the tractor field.

This we honestly believe, but we want you, too, to know what the John Deere will do. Give us the opportunity to show you.

Bow Valley Resource

Communications

We do not hold ourselves responsible for any argument or statement advanced by any writer who avails himself of the privilege of using these columns to discuss questions pertaining to the public welfare.

Editor, Bow Valley Resource:

Now that the curling is over we must not allow ourselves to become separated from a community spirit of good fellowship. Curling has brought many men and women together that otherwise would not have the opportunity of getting acquainted and to learn and appreciate the good qualities of the other fellow. If we would build up a happy and prosperous community. There are some very important items to bear in mind, some of which I will mention here. Look for the good points and qualities of the other fellow, and try to help and encourage him in all his good works. Do not try to be a sensational gossip monger. They are of the lowest type of minds and wholly lacking in decent character, and through their malicious lies and infamous gossip they only tend to disintegrate the community instead of bringing the community feeling together, as one in which there will be found strength. We are placed here by circumstances, or by our own choice, or there may be various other reasons why we are here. Nevertheless we are here, and being here, and having to live here for the time being at least, let us endeavor to cultivate a community spirit of good fellowship and try to live up to the best we have been taught as Christians.

Now is the time to organize a community spirit good fellowship club, which should embrace the whole community, and the motto of the club should be: If you cannot find any good in a man or woman, do not advertise his or her faults, for remember we are here to live together and not to judge one another and be judged by them—the judging will come to all of us later.

If something along these lines is adopted in this community, even if we don't prosper we will at least have a comparative share of happiness in our community as a reward.

Let us take the Curling Club as a backbone of this good fellowship organization and go forward with it.

Yours truly,

JOHN O. McHUGH.

Preparation on Seed Grain

(Expeimental Farm Note)

According to figures published by the Field Crops Commissioner for the Province of Saskatchewan as a result of a seed drill survey, the average number of weed seeds sown per acre in that province reaches the astounding total of 4,275 when 114 bushels of grain are sown per acre.

Weed seeds in the grain crop use plant food, and draw heavily on the limited moisture supply of prairie soils. Controlled experiments have shown that where a yield of 30 bushel per acre is obtained on weed free land, the yield is reduced on weedy land to 18 bushels, and where the growth of weed is heavy it has been reduced to as 9 bushels under other-wise identical conditions.

The above evidence demonstrated the amount of improvement that can be brought

about by cleaning seed grain and is an indication of the results from using seed grain.

Commercial machines for the cleaning of grain, either in a small way or as a community enterprise exist. Any good fanning mill, if there is efficient control over the air blast and proper adjustment of screens, is possible, can be made do fairly good work if the operator has an intelligent idea of the sieves to use.

Many persons believe that after their cleaning is done in the usual way, the sample is free from weed seeds. A report on the weed seed contest and germination may be obtained by sending one pound to the nearest office of the Dominion Seed Branch in Winnipeg, Saskatoon or Calgary.

Here and There

The railroads cannot continue to pay a million dollars a day in taxes; they cannot pay interest on their bonds; they cannot buy new equipment unless they earn the money. In putting the railroads in a sound, money-making position we are aiding the whole country, says the Hornell (N.Y.) Tribune Times.

Montreal witnessed an unprecedented invasion from Quebec on the first week-end of February, when over 3000 men, women and children, drawn from all ranks and classes, arrived on the three dollar return Canadian Pacific excursion from the Ancient Capital. Four special trains were used.

Seated on a glittering ice throne between two huge natural icebergs, Miss Margaret Stevenson, of Edmonton, in her role as Carnival Queen and assisted by His Honor Lieutenant-Governor W. L. Walsh, opened the 16th Annual Banff Winter Sports Carnival at that Canadian Rockies resort, this month.

The appointment of W. R. Patterson to be General Auditor, Canadian Pacific Railway, has been announced, effective February 1, over the signature of E. E. Lloyd, Comptroller, in succession to G. C. Gahan, who died recently. Mr. Patterson, who was born in Toronto in 1890, is one of the youngest railway executives on the continent.

Plans for a national championship for grouse and woodcock dogs are under way and New Brunswick is considered as the best possible locality for staging the event. Field enthusiasts in the United States recently held a meeting to discuss the championship and were greatly influenced by the advice of Ozark Ripley, well known sport writer, who strongly advocated the claims of New Brunswick.

Indication of the contribution made and being made to civilization by the engineering profession was demonstrated at the 46th annual convention of the Engineering Institute of Canada held at the Royal York Hotel, Toronto, recently. A very wide variety of topics formed the basis of speeches and discussions at the convention at which the most outstanding men in the profession were present.

A little brown jug left Grand Pre, N.S., recently on a long journey south to the Land of Dixie. Unlike the brown jug of the old song, it did not contain ale, or anything likely to excite the U. S. Customs officials. Just water from the historic well of Evangeline at Grand Pre Memorial Park, site of the birthplace of Longfellow's heroine. The water will be used to christen the new 10,000 ton steamer "Acadia" to be operated on the run between New York and Yarmouth, N.S.

Ski-ing, the sport that has had the greatest growth of any winter activity in the past decade, reached its peak this year with thousands of skiers trekking out to the Laurentians, north of Montreal, every week-end. Special trains are put at their disposal by the Canadian Pacific Railway. Similar week-end outings are encouraged by this railway in all the great centres of population and it takes a major place at all sport meetings across the continent. (\$22)

The population of Canada, according to last year's census, is 10,353,778, an increase in 10 years of 1,565,829, or 17.32 per cent. The largest provincial population is in Ontario with 3,426,188. Saskatchewan, Alberta and Manitoba rank third, fourth and fifth.

Here and There

New Brunswick will be selected as the training ground for the Boston Bruins Hockey Club prior to the 1933 N. H. L. season. About 40 players will go into the training camps some time around October 15.

Autumn sowing of all grains in Soviet Russia last year amounted to 55,460,000 acres, representing a decrease of 10.8 per cent from the official fall sowing programme mapped out by the government, according to a recent cable received by the Canadian Department of Trade and Commerce.

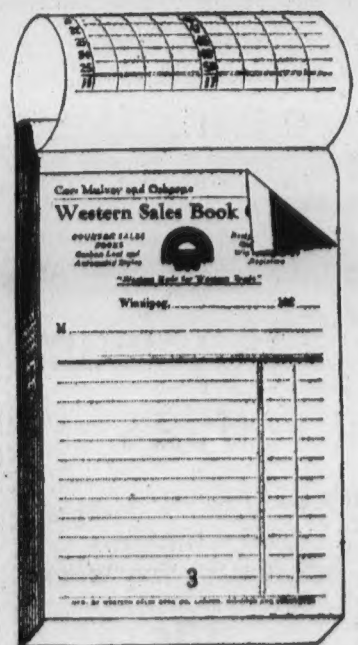

Week-end trips, so popular last year on Canadian Railway lines, will remain in force this year after February 29, the date set for their discontinuation. The Canadian Passenger Association has reached this decision under pressure of public demand. Under this arrangement, round trip tickets between any Canadian stations for any week-end are offered by the railways at the rate of one and a quarter times the regular single fare.

Two Alberta speed-skating records were smashed at the recent Banff Winter Sports Carnival. The 220 yards event was won by A. E. Hardy, of Saskatoon, in 29 seconds flat, 4.5 seconds better than the former Alberta record. The Three mile event was also taken by Hardy in 9 minutes and 2.5 seconds, beating 28 and 3.5 seconds less than the former Alberta record. Miss Margaret J. Nicol, of Drumheller, was elected Carnival Queen and will reign over the Banff Winter Sports Carnival at 1933.

Travellers in Canada at Easter-time will have the benefit of the same ticket privileges as were granted them at Christmas, according to a recent announcement made by the Canadian Passenger Association on behalf of the Canadian Pacific and Canadian National Railways. This concession will be fare and a quarter for round trip generally to the travelling public, between Thursday, March 24 and Sunday, March 27 with return available up to Tuesday, March 29.

Fifty-seven 10-year leases of salmon and trout fishing rivers, lakes and streams in New Brunswick will be put up to public auction at the Parliament Building, Fredericton, April 7 next, at upset prices ranging between \$25 per annum and \$12,000 per annum, is the announcement of Hon. L. F. D. Tilley, provincial Minister of Lands and Mines. They represent the pick of salmon fishing facilities on this side of the American continent.

At the close of a meeting of the directors of the Canadian Pacific held at Montreal, February 8, President E. W. Beatty announced that in order to help western farmers over the present period of depression the Company has offered to write-off interest on land contracts for the year 1931. This offer will be extended to the year 1932 on condition that the contract holder pays his taxes and one full installment on his contract this year. Further encouragement in the form of a bonus will be given to those who make payments on account of arrears of interest, the bonus to be in proportion to payment made. This should be of great assistance to contract holders on the Company's lands who have suffered through depressed markets or crop failures. (\$24)

Happenings In and
Around Arrowwood

The P.T.A. are sponsoring a dance to be held in the school on Friday, March 4th.

Car and truck owners—secure your 1932 license plate from J. M. Weins.

John A. Artyukov, Mr. and Mrs. G. R. Smith of Queenstown, on Saturday, Feb. 27th, a son.

Strictly fresh eggs always on hand at Frank Johnston's at 20 cents per dozen.

The Brenner's four-piece orchestra has been engaged for the P.T.A. dance on March 4th.

The E. C. Bowman family were guests at the J. S. Culp home on Sunday.

"Clubbing Our Husbands" will be presented by the Ladies Guild on March 18th.

Painting and decorating. Fancy decorating of kalsomined walls a specialty. Jack McHugh, Arrowwood.

Messrs. J. McRae and M. T. Edwards of Shouldice were visitors in Arrowwood on Tuesday.

The new owner and operator of Mae's truck, R. W. Terichow, is making his regular semi-weekly trips to Calgary, Tuesdays and Thursdays and says that business prospects are good.

The regular monthly business meeting of the Brethren Church was held on Tuesday p. m. A good representation of the members was present and much business was disposed of.

Mrs. H. M. Kerr and daughter Miss Doris Kerr, left on Tuesday for Calgary, where they will join Mr. Kerr. Arrowwood people are sorry to lose the Kerr family and wish them success in their new venture.

In spite of the bad condition of the roads, a fair crowd attended the Old-Time Social at the Sunset Valley School last Friday night. A very enjoyable evening was spent in cards and dancing.

The Larsen Implement's six-wheel truck moved the household effects of J. Mackie Jr. to the Mackie farm N.E. of Carlsland this morning, and the truck will return via Blackie with 200 bushels of oats for P. L. Fike.

The Ladies' Guild will hold a Home Cooking Sale in L. F. Chrestenson's Store on Saturday, March 5th, giving you an opportunity to buy home cooked dainties at reasonable prices. If it is impossible for you to attend early phone your order to Mr. Chrestenson and he will have them reserve your purchases.

The strange disease that took a toll of over forty sheep from the Gaylen Jones herd seems to have left as mysteriously as it appeared and Mr. Jones re-

ports that he believes that his band of sheep are again alright. The report from Lethbridge on the vital organs that were examined disclosed nothing that would assist in the treatment of the sheep.

Mr. A. Ingraham, Miss Verna Ingraham and Mrs. R. H. Bishop motored to Calgary on Friday, returning Sunday evening.

Nicely furnished rooms and good board, by day or week. Reasonable rates. Home Hotel, Arrowwood.

School Notes

(Continued from page 1)

When it comes to History 2, You cannot say that I'm the one to blame.

Elizabeth and Rawleigh And brutal General Hawley, Why should we know what they were wont to do? The past is dead and gone We won't be here so long, Lets forget about this ancient History 2.

This poem is published with the kind permission of the author. Due to his modesty we are withholding his name at this office and will be furnished only on a mailed request to the Editor, School Notes.

One of the Three Bad
Habits

Slap—a giant hand is driving the pistons against the walls of your motor!

Slap—Slap—1,200 or more times a minute the explosions "slap" the piston against the walls with terrific force!

Slap—Slap—Slap—mile by mile "Piston Slap" is pounding the life out of your cylinder walls—wearing the pop and speed out of your motor.

Don't let this Bad Habit ruin your motor. Test your own car to day—if you hear a hard metallic cluck-cluck-clucking noise (a) when pulling up a hill or (b) when making a cold start or (c) when accelerating from speed in high gear, it is probably Piston Slap.

The Simplex Method of motor conditioning is built around the trio of Simplex Piston Rings—Simplex Standard, Simplex Oil-Chek and Simplex Slap-Chek. With these patented rings you can cure all three of the 3 Bad Habits for at least 10,000 miles.

The WAGIN' TUNG

Vol. 1, No. 29 Arrowwood, Mar. 6, 1932 Items for Thought

We Are Still Optimistic

Sometime ago we set forth, in this space, the fact that we thought we had located in one of the choicest parts of Alberta. This is to remind you that we still have that same faith. As we travel through the Arrowwood district we believe we are able to detect a better feeling toward investment prevailing amongst the people, and if we all put our shoulder to the wheel we will soon be out of this mire. It has been a long drag but to our humble opinion we believe we are over the hump.

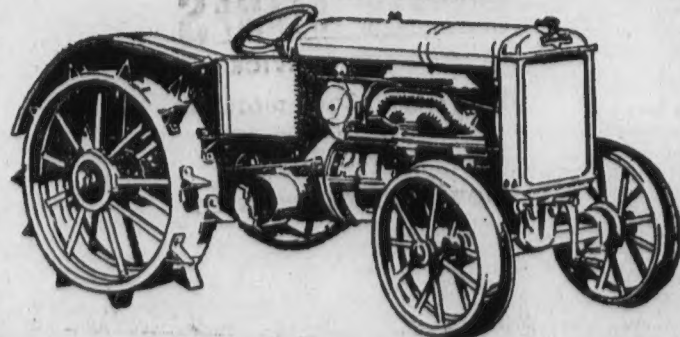

The recent cold weather seems to have slowed things down somewhat. Remember the longer you put off those jobs that have to be done, the shorter the time becomes when you will need them. Its the

early bird that catches the worm.

Ted, "My feet burn like the Diekus; do you think a mustard bath would help Ned," "Sure! there's nothing better for hot dogs."

To make farming pay it must be done thoroughly and cheaply. Both of these are done to perfection when it comes to working the land in the spring with a Cockshutt "Tiller Combine," plows, discs and sows all in one operation. "Once over all over," at a saving of from 75 to 90 cents per acre. This saving in one season will make a substantial payment on the Tiller Combine.

You May Need a New Power Unit to Pull that New Tiller Combine, or whatever implement you may already have. For Heavy Duty Work the Allis Chalmers 20-35 will handle it.
